He is your friend is he not?
He went along with a part of evil

Was Okuni taken to Iga?
It seems Sakichi never changes his mind once he decides something
Oh..

Oda
Ishiyama Honganji
Tokugawa
Iga
Everyone wants power
Even Nobunaga sama who rules this Oumi yearns for the Orochi's power
It sure has been a lot of talk about snakes and skulls lately
I don't know where your allegiance lies.
but if you harm Kunitomo I will treat you without remorse.
What about Kunitomo?
I have no interest in it.
Where are you off to?
Home.
I have to tell Yuuma.
Sakichi... Don't be too reckless.

"I don't know where your allegiance lies" is it
Now, I wonder?

Wait!
Why are you running!?
Felt like it?
Ah, Sakicchan
What!?
Why you
There's a hunting trap over there.
ドロ
ドロ

What grudge do you hold against me
Nothiiiing really
Kumoooooou!!!!!
Do you hate Nobunaga sama?
Oumi is Nobunaga-sama's dominion.
Off the top of my head I think it's because of the Nobunaga faction existing.
That person is of a different caliber
I don't like it My dominion's mine

Oda Nobunaga.
The man closest to unifying the whole country,
and his existence puts fear in others.
His words and actions charm the people.
He's TOO different

About the end of the Azai clan, who once ruled this land
You should also be well aware of this
Everyone men women children elders were killed
He drinks his sake from the skulls of his fallen enemies, and laughs at the misery of his retainers.

He burned to death the people of Henzan who stood under the same revolutionary banner
He paid no remorse to the Azai despite his little sister having wed into the family
"It wasn't only the monks, but the women and children as well. It was a great massacre."
It seems your beloved Hideyoshi-sama couldn't just stand by and watch and let a countless number of people flee
!...

Are you sure you want to serve someone like that?
My master is Hideyoshi-sama
I will follow the orders my master's lord gives
Seriously— He lays waste to the land just as he pleases
Baren?
Come on. We're leaving Oumi soon.
I see
We're in Iga

So Okuni is in the Iga village
No, Shinobi don't let outsiders into their villages
Though she's somewhere on this mountain
Sakicchan
hm
What

He is far too relaxed for someone who is heading toward shinobi
I can't let my guard down....
Seriously He lays waste to the landyust as he pleases
Is there nothing that he's scared of?
No
Does our Lord have something in mind?

You still haven't found it?
Our most sincere apologies.
We are doing all we can to find it, but there is very little information.

Hurry it up.
Understood.!
Kuanaru.
Yes.
What happened to the matter with Kunitomo?
It would seem Toubee took care of it

The sought-after Orochi is still out of our reach
The Dokuro-Hoozuki was brought up but no useful information was
As you command Once My Lord has claimed the Orochi your influence will be unwavering
The clouded sky is the proof of the Orochi having claimed a vessel
Make them hurry the searches.
Tell me
We have one piece of information about the Dokuro-Hoozuki.
I was unsure whether to tell you this, as it is only a rumour...

They say that in Southern Oumi, the two 8th heads of a certain shrine
the twins Kumou Baren and Okuni are the Dokuro Hoozuki
Kumou....
